Item 1. BUSINESS

General

Barrett Business Services, Inc. ("Barrett" or the "Company"), was incorporated in the state of Maryland in 1965. Barrett provides light industrial, clerical and technical employees to a wide range of businesses on both a temporary basis and a longer-term leased basis. The Company believes it is the largest provider of temporary staffing and staff leasing services in Oregon, measured by revenue. Services are provided through a branch network of 14 offices, nine located throughout the western half of Oregon, two in northern California, two in Maryland, and one in Seattle, Washington. The Company provides employees to a diverse set of customers, including forest products and agriculture-based companies, electronics manufacturers, transportation and shipping enterprises, professional firms and general contractors.

Recent Acquisitions

In March 1993, the Company acquired a branch office of CDI Corporation-West in Sacramento, California, with annual revenues of approximately \$300,000. The acquired temporary services operations were combined with the Company's existing Sacramento office.

The Company completed the purchase of the assets of Personnel Management & Consulting, Inc. ("PMC"), with unaudited revenues of \$800,000 for the year ended December 31, 1993, in February 1994. PMC, which had been operating since mid-1992, had offices located in each of Easton and Salisbury, Maryland, and Seaford, Delaware.

On March 7, 1994, the acquisition of the assets of Golden West Temporary Services, operating through four offices in the San Francisco Bay Area of California, was consummated by the Company. The acquired assets included office equipment and leases, customer and employee lists, and trade names, logos and goodwill. The acquired operations had total revenues of \$24,533,000 for the year ended December 31, 1993. The purchase price of \$4,514,000 was paid in cash from working capital and was determined by arm's-length negotiation between the parties.

Barrett's growth strategy includes expanding operations at existing offices, primarily through its ongoing marketing and sales program, as well as acquiring additional personnel-related businesses, both in its existing markets and in other geographic areas. The Company reviews acquisition opportunities on an ongoing basis, but there is no assurance that any additional acquisitions will be completed in the foreseeable future.

Temporary Services

General. Temporary employees permit businesses to meet peak or extraordinary demands caused by such factors as seasonal increases, vacations, illnesses, special projects and marketing promotions without incurring the ongoing expense and administrative responsibilities associated with recruiting, hiring and retaining additional permanent employees. The use of temporary services permits businesses to apply to their personnel requirements the "just-in-time" approach adopted by many manufacturers in recent years to manage raw materials inventories. By maintaining a core of permanent employees to meet minimum requirements and managing increased demand through greater use of temporary employees, companies are able to convert a portion of their fixed personnel expense to variable expense and to lower the amounts they are required to spend overall on recruiting and training efforts, severance compensation, recordkeeping, payroll and other personnel management functions.

The Company's Temporary Services. The Company provides light industrial, clerical and technical workers on a temporary basis to a broad range of businesses, including forest products and agriculture-based companies, electronics manufacturers, transportation and shipping companies, professional firms, and construction contractors. Light industrial workers perform such tasks as operation of machinery, loading and shipping, site preparation for conventions and other special events, construction site cleanup and janitorial services, and generated approximately 73% of the Company's 1993 temporary services revenues. Clerical workers, who accounted for approximately 19% of 1993 temporary

services revenues, include secretaries, receptionists, typists and clerks. Technical personnel include electronic parts assembly workers, engineers in a variety of fields, including aerospace, chemicals, electronics and general industry, and designers and drafters of electronic parts; these workers represented approximately 8% of the Company's 1993 temporary services revenues.

Temporary assignments may last a day, a week or months, depending upon the client's requirements. The client pays only for actual hours worked by temporary personnel and may terminate their services at any time. A significant portion of the temporary services provided by the Company is project-oriented, requiring one or more employees for a period of time to accomplish a nonrecurring or periodic task, such as converting to a new data processing system or taking a physical inventory.

The Company's temporary services customers range in size from small local firms to large national companies using the Company's services on a local basis. The Company provided temporary services to more than 3,600 clients during 1993, up from approximately 2,800 clients in 1992. None of the Company's temporary services clients individually accounted for more than 5% of its total annual revenues during 1993.

Business Strategy. The Company emphasizes prompt, personalized service in assigning quality, trained personnel at competitive rates to users of its temporary services. Since 1980, the Company has relied on internally developed computer databases of employee skills and availability to match customer needs with available qualified employees. As a local company operating in selected market areas, Barrett has an understanding of the unique factors affecting its clientele that enables it to personalize its response to its customers' needs.

Barrett provides extensive training to its branch office managers and other sales personnel to develop and maintain a high level of service and professionalism. Its ongoing training program includes in-house presentations, outside seminars, video instruction and role playing. Both the successful solicitation of new customers and the retention of existing accounts are rewarded through a commission structure. Sales commissions represent between one-third and two-thirds of a salesperson's compensation. In addition, branch office staff participate in the Company's profit-sharing program. See "Employees and Employee Benefits," below.

Recruiting. The Company employs a variety of methods to recruit its workforce of temporary employees, including newspaper advertising and flyers distributed at colleges and vocational schools. In addition, a substantial number of new employees are hired through referrals by Barrett's existing employees. The Company has generally found it easier to recruit and retain qualified personnel during periods of higher unemployment and must devote more resources to locating new employees during upturns in the economies in its market areas. The Company may be unable to pass on the full amount of such increased recruiting and personnel costs in the form of higher prices for temporary services, resulting in lower gross profit margins.

Each employee applicant undergoes an interview, skills assessment and reference verification process to determine level of ability and past job performance. Following hire and placement, performance is reviewed with clients to assure customer satisfaction and quality control. Barrett provides its customers with an unconditional guarantee of performance; if a client is dissatisfied for any reason, no payment is required.

The Company believes that its wage and benefit package, customer base, and opportunities for part-time and flexible scheduling have contributed significantly to its success in recruiting and retaining quality personnel in numbers sufficient to meet customer demand. See "Employees and Employee Benefits," below.

Sales and Marketing. The Company markets its temporary services primarily through personal sales presentations by its branch office managers and trained sales force and, to a lesser extent, through advertising in various publications, including local newspapers and the Yellow Pages. The Company also benefits from referrals by existing clients; staff leasing clients frequently use Barrett's temporary services as well.

Following development of a preliminary profile of a prospective client's needs, the Company schedules a meeting with the client's personnel manager to explain the Company's services. Based on this information, Barrett develops an hourly charge for its temporary services which is designed to be competitive in relation to the marketplace. The actual cost to the client of an employee typically ranges from 135% to 150% of salary, including employment taxes, employee benefits and insurance and administrative costs. The Company believes it has been able to maintain a price advantage due to the lower costs

associated with its self-insured workers' compensation program when compared to the cost of workers' compensation insurance coverage.

The Company's sales and marketing efforts have generally increased during periods of economic decline, when demand for temporary services decreases. As a result of this reduced demand, the higher costs associated with sales and marketing typically cannot be recovered through price increases, with the result that gross margins decline.

Billing. The Company prepares weekly customer invoices immediately following each payroll period through the centralized payroll and billing operations at its corporate headquarters. Barrett has not experienced significant problems in collecting accounts to date, which it attributes to client satisfaction with its services, its analysis of potential clients' credit history prior to agreeing to provide services, and regular monitoring of accounts.

Staff Leasing Services

General. Many businesses, particularly those with a limited number of employees, find personnel administration requirements to be unduly complex and time-consuming. These businesses often cannot justify the expense of a full-time human resources staff. In addition, the escalating costs of health and workers' compensation insurance in recent years, coupled with the increased complexity of laws and regulations affecting the workplace, have encouraged these small to mid-sized businesses to consider staff leasing.

The Company's Staff Leasing Services. In a staff leasing arrangement, the Company hires, as its own employees, workers who were previously employed directly by the client and then leases these employees to the client. The Company assumes responsibility for handling some or all personnel-related matters, including payroll and payroll taxes, employee benefits, health and workers' compensation insurance coverage and related administrative paperwork. The Company also hires and fires leased employees, although the client remains responsible for day-to-day assignments, supervision and training and, in most cases, recruiting.

The Company began offering staff leasing services to Oregon customers in 1990, and expanded its worker leasing program to Maryland in the first quarter of 1994. The number of Barrett's staff leasing clients increased from approximately 300 at December 31, 1992, to approximately 425 at year-end 1993. The Company has entered into staff leasing arrangements with a wide variety of clients, including reforestation companies, moving and shipping companies and professional firms. Staff leasing clients are typically small to mid-sized businesses with up to 50 employees. None of the Company's staff leasing clients individually accounted for more than 5% of its total annual revenues during 1993.

Business Strategy. The Company believes that it has attracted significant numbers of new staff leasing clients since 1990 by demonstrating the potential for cost reductions offered by the Company's self-insured workers' compensation program. Barrett also offers a variety of employee benefits, which it can generally provide on a cost-effective basis due to its large size relative to its clients. The Company believes these benefits reduce employee turnover and increase the appeal of staff leasing arrangements to most clients. The overall cost to the client for its leased employees is typically at or below the cost per employee that the client would incur if it employed its workforce directly.

The Company's standard lease agreement provides for a minimum one-year term, with successive one-year renewals unless notice of termination is given by either party. The agreement permits cancellation by either party upon 60 days' prior written notice. In addition, the Company may terminate the agreement at any time for specified reasons, including nonpayment or failure to follow Barrett's workplace safety program. The agreement also provides for indemnification of the Company by the client against losses arising out of any default by the client under the agreement, including failure to comply with any employment-related, health and safety or immigration laws or regulations.

Sales and Marketing. The Company markets its staff leasing services through its Oregon and Maryland branches using its branch office sales staff. The Company also obtains referrals from existing clients and other third parties, and places advertisements in the Yellow Pages.

Prior to entering into a staff leasing arrangement, the Company performs an analysis of the potential client's actual personnel and workers' compensation costs based on information provided by the customer. Barrett also introduces its workplace safety program and makes recommendations as to improvements in procedures and equipment

following a safety inspection of the customer's facilities. Once the client has agreed to implement the Company's safety program, the Company proposes a leasing arrangement at a price which is typically at or below the client's prior overall personnel costs per employee. Barrett also offers significant financial incentives to clients to maintain a safer work environment, thus enabling clients to achieve additional savings. Typically, clients share these incentives with their leased employees.

Billing. Through centralized operations at the Company's headquarters in Portland, Oregon, weekly payroll checks are prepared for each staff leasing client and delivered by courier. The Company invoices its clients following the end of each payroll period. Such invoices are due upon receipt and are generally paid within five business days. The costs of health insurance coverage and Barrett's cafeteria plan are passed through to its staff leasing clients based on the number of participating employees. The Company often requires a deposit from its staff leasing clients to cover a portion of the anticipated billing for one payroll period. The Company has had generally favorable results with collecting accounts to date, which it attributes to the prompt turnover of receivables, its analysis of potential clients' credit history, and regular monitoring of accounts.

Self-Insured Workers' Compensation Program

The Company believes that its self-insured workers' compensation program has been key to its growth in revenue and profitability in Oregon. Significant elements contributing to the success of the workers' compensation program include the regulatory climate surrounding workers' compensation, the Company's workplace safety program and the aggressive claims management approach taken by the Company and its third-party administrators, all of which are described in detail below.

Elements of Workers' Compensation System. State law generally mandates that an employer reimburse its employees for the costs of medical care and other specified benefits for injuries or illnesses incurred in the course and scope of employment. The benefits payable for various categories of claims are determined by state regulation and vary with the severity and nature of the injury or illness and other specified factors. In return for this guaranteed protection, workers' compensation is an exclusive remedy and employees are generally barred from seeking other damages from their employer for workplace injuries.

Most states require employers to maintain workers' compensation insurance coverage or otherwise demonstrate financial responsibility to meet workers' compensation obligations to employees. In many states, employers who meet certain financial and other requirements are permitted to self-insure.

Self-Insurance for Workers' Compensation. In August 1987 and November 1993, the Company became a self-insured employer for workers' compensation coverage in Oregon and Maryland, respectively. The regulations governing self-insured employers in each state require the Company to maintain deposits of cash, government securities or other financial instruments to cover potential claims losses.

Barrett also maintains excess workers' compensation insurance coverage for claims exceeding \$350,000 (\$300,000 prior to January 1, 1994) in an unlimited amount (up to \$10,000,000 per occurrence for claims through December 31, 1993) pursuant to an annual policy. The excess insurance policy contains standard exclusions from coverage, including punitive damages, fines or penalties in connection with violation of any statute or regulation and losses covered by other insurance or indemnity provisions. The Company maintains workers' compensation insurance coverage through state programs in California and Washington and, to a limited extent, through independent insurance carriers in Washington. The Company is presently pursuing applications to become a self-insured employer in California and Washington.

Workplace Safety Program. In the late 1980's, the Company saw an opportunity to package and market to small and mid-sized Oregon employers its safety program designed to assist clients in managing workplace injuries and reducing workers' compensation claims. The Company's program, which was expanded to Maryland in 1993, begins with an on-site safety inspection by one of its risk managers. Barrett then designs a safety program for the client, including employee and supervisor safety training and regular meetings between management and employees to discuss safety precautions. Among other safety measures, the Company encourages clients to provide on-site first aid care and to make improvements in workplace procedures and equipment to reduce the risk of injury. The Company's third-party administrators for workers' compensation claims also assist the Company in performing safety inspections of client worksites and provide technical advice regarding workplace safety measures.

A key factor to the success of the Company's safety program is its system of financial incentives to reward reductions in the number and

severity of work-related injuries. If the cost of claims is less than agreed upon amounts, the Company pays an annual amount based on a percentage of the staff leasing client's payroll. Clients typically share these incentives with their leased employees. Staff leasing clients and leased employees are thus given an economic incentive to cooperate in maintaining a safer work environment and reducing the frequency of fraudulent claims.

During 1993, Barrett implemented a corporate-wide mandatory pre-employment drug testing program. Results of the program are believed to include a reduction in the frequency of fraudulent claims and in accidents in which the use of illegal drugs appears to have been a factor.

Claims Management. The Company also seeks to contain its workers' compensation costs through an aggressive approach to claims management. Barrett uses managed care systems to reduce medical costs and keeps time-loss costs to a minimum by assigning injured workers, whenever possible, to temporary assignments which accommodate the worker's physical limitations. The Company believes that these temporary assignments minimize both time actually lost from work and covered time-loss costs. Barrett has also engaged third-party administrators to provide additional claims management expertise. Typical management procedures include performing thorough and prompt on-site investigations of claims filed by employees, working with doctors to encourage efficient medical management of cases, denying questionable claims, and negotiating early settlements to cut off future case development and costs.

In July 1993, the Company acted to decentralize responsibility for safety and claims management to its branch offices in Oregon and Maryland. This operational change effectively tripled the total personnel resources dedicated to injury prevention and claims expense control, enabling the Company to conduct more effective on-site safety training and more thorough and timely investigation of claims.

Elements of Self-Insurance Costs. The costs associated with the Company's self-insured workers' compensation program include loss and loss adjustment expense payments with respect to claims made by employees, fees payable to the Company's third-party administrators, assessments payable to state workers' compensation regulatory agencies, premiums for excess workers' compensation insurance coverage, and safety incentive payments. Although not directly tied to the size of the Company's payroll, the number of claims and related loss payments may be expected to increase with growth in the total number of employees. Third-party administration fees also vary with the number of claims administered. The state assessments are based on payroll amounts and increase proportionately with increases in the Company's employee base. Excess insurance premiums are also based in part on the amount of the Company's payroll. Safety incentives expense may increase as the number of the Company's staff leasing employees rises, although increases will only occur for any given client if such client's claims costs are below agreed upon amounts.

Workers' Compensation Claims Experience and Reserves

In connection with its workers' compensation self-insurance program, the Company is liable for loss and loss adjustment expense payments under the workers' compensation laws of Oregon and Maryland. Several months may elapse between the occurrence of a workers' compensation loss, the reporting of the claim to the Company and the Company's payment of that claim. The Company reflects its liability for the ultimate payment of all incurred claims and claims adjustment expenses by establishing loss and allocated loss adjustment expense reserves, which are balance sheet liabilities representing estimates of future amounts needed to pay claims and related expenses with respect to covered events that have occurred.

When a claim involving a probable loss is reported, the Company establishes a case reserve for the estimated amount of its ultimate loss and allocated loss adjustment expense payments. The estimate reflects an informed judgment based on established reserving practices and the experience and knowledge of Barrett's third-party administrators regarding the nature and value of the claim, as well as the estimated expense of settling the claim, including legal and other fees and expenses of administering claims ("allocated loss adjustment expenses"). The reserves also provide for losses incurred but not reported ("IBNR"), as well as future development in excess of case reserves on losses reported to the Company (together, "IBNR reserves").

As part of the reserving process, historical data are reviewed, and consideration is given to the anticipated effect of various factors, including known and anticipated legal developments, changes in social attitudes, inflation and economic conditions. Reserve amounts are necessarily based on management's estimates, and as other data become available and are reviewed these estimates and judgments are revised,

resulting in increases or decreases to existing reserves. As of December 31, 1993, the Company's loss reserves totaled \$2,434,000, compared to \$1,337,000 at year-end 1992. The total number of self-insured claims reported in 1993 was 1,085, compared to 979 for 1992. Barrett has engaged a nationally-recognized, independent actuarial firm to review the Company's reserves periodically. Based in part on such review, the Company believes its total loss reserves at December 31, 1993, make adequate provision for its workers' compensation loss and allocated loss adjustment expense obligations at such date. There can, however, be no assurance that the Company's actual future workers' compensation obligations will not exceed the amount of its reserves, with a corresponding negative impact on future earnings, due to such factors as unanticipated loss development of known claims, an increase in the number and severity of new claims, and a lack of historical claims experience with new staff leasing clients.

Employees and Employee Benefits

At December 31, 1993, the Company had approximately 7,615 employees, including approximately 3,900 temporary services employees, 3,600 leased employees and 115 managerial, sales and administrative employees. The number of employees at any given time can vary significantly due to special project requests, seasonality and other factors. None of the Company's employees are covered by a collective bargaining agreement. Each of Barrett's managerial, sales and administrative employees has entered into a standard form of employment agreement which, among other things, contains covenants not to engage in certain activities in competition with the Company for 18 months following termination of employment and to keep the Company's customer lists and other proprietary information confidential. Barrett believes its employee relations are good.

Benefits offered to Barrett's temporary employees include group health insurance, a cafeteria plan permitting employees to use pre-tax dollars to obtain various services, including medical, dental and child care, and a 401(k) savings plan pursuant to which employees may begin making contributions upon reaching 21 years of age and completing 1,000 hours of service in any consecutive 12-month period. The Company may also make contributions to the savings plan, which vest over seven years and are subject to certain legal limits, at the sole discretion of the Company's board of directors. Leased employees may participate in the Company's benefit plans, provided that the group health insurance premiums may, at the client's option, be paid by payroll deduction. Barrett also maintains profit-sharing bonus plans for its managerial and administrative personnel.

Regulatory and Legislative Issues

The Company is subject to the laws and regulations governing self-insurers under the workers' compensation systems in Oregon and Maryland. In addition, legislation was adopted in Oregon in 1993 which requires a worker leasing company, such as Barrett, to be licensed by the Workers' Compensation Division of the Oregon Department of Consumer and Business Services. Temporary services companies are expressly exempt from the legislation. Worker leasing companies are required to notify the Workers' Compensation Division if they provide workers' compensation coverage for their leased employees, and an insurer providing such coverage is required to use the experience of the client for the purpose of assigning an experience rating to the worker leasing company. Worker leasing companies are also required to assure that each leasing client provides adequate training and supervision for its workers in compliance with statutory requirements for workplace safety and to give 30 days' written notice of termination of its obligation to provide workers' compensation coverage for leased employees and other subject employees of a leasing client. Although compliance with the legislation has caused Barrett to make certain changes in its staff leasing operations and client contracts and has subjected it to additional financial risk with respect to workers' compensation expense, particularly with respect to leasing clients who breach their payment obligations to the Company, Barrett does not anticipate that compliance with the legislation will have a material impact on its business operations, financial condition, or operating results.

Federal legislative proposals for national health care reform include provisions extending mandatory health insurance benefits to virtually all classes of employees. In addition, workers' compensation coverage may be included in the reform package ultimately adopted. While it is impossible to predict if, when and in what form health care reform will be enacted, elements of such reform may have a material adverse effect on the Company's operations and its self-insured workers' compensation program.

Competition

The staff leasing and temporary services businesses are characterized by rapid growth and intense competition. The temporary

services market includes competitors of all sizes, including several, such as Manpower, Inc., Kelly Services, Inc., The Olsten Corporation, Interim Services, Inc., and Adia Services, Inc., which are national in scope and have substantially greater financial and marketing resources than the Company. In addition to national companies, Barrett competes with numerous local and regional firms for both customers and personnel. The Company estimates that approximately 50 firms provide temporary services in Oregon. There are relatively limited barriers to entry into the temporary services business. The principal competitive factors in the temporary services industry are price, the ability to provide qualified workers in a timely manner and the monitoring of job performance. The Company attributes its growth in temporary services revenues to the cost-efficiency of its operations, which permits it to price its services competitively, and to its ability through its branch office network to understand the needs of its customers and fill those needs with competent personnel.

Although there are believed to be more than 1,300 staff leasing companies currently operating in the United States, many of these potential competitors are located in states in which the Company presently does not operate. Barrett believes that approximately 13 staff leasing firms are operating in Oregon, but that the Company has the largest presence in the state. The Company may face additional competition in the future from new entrants to the field, including other temporary services companies, payroll processing companies and insurance companies. Certain staff leasing companies operating in areas in which the Company does not now, but may in the future, offer its services have greater financial and marketing resources than the Company. Competition in the staff leasing industry is based largely on price, although service and quality are also important. Barrett believes that its growth in staff leasing revenues is attributable to its ability to provide small and mid-sized companies with the opportunity to provide enhanced benefits to their employees while typically reducing the clients' overall personnel administration and workers' compensation costs. The Company's competitive advantage may be adversely affected by a substantial increase in the costs of maintaining its self-insured workers' compensation program or by a general decrease in workers' compensation premiums due to reform efforts or workplace safety improvements.

Item 2. PROPERTIES

The Company provides temporary services through all 14 of its branch offices. Staff leasing services are currently offered through each of Barrett's Oregon and Maryland locations. The following table shows the locations of the Company's branch offices and the year in which each branch was opened or acquired. The Company's Oregon branches accounted for approximately 90% of its total revenues in 1993. The Company also leases space in nine other locations in its market areas which it uses to recruit employees.

In May 1993, Barrett purchased an office building in Portland, Oregon, with approximately 9,200 square feet of office space, for a total purchase price of \$925,000. The Company's corporate headquarters were relocated to the new building in June 1993. The building is subject to a mortgage loan with a principal balance of approximately \$683,000 at December 31, 1993.

The Company also owns another office building in Portland, Oregon, in which its headquarters were previously located. The building is subject to a mortgage loan with a principal balance at December 31, 1993, of approximately \$283,000 due in full in November 1998 and has approximately 7,000 square feet of office space. Barrett moved its Portland (Bridgeport) branch office to this building in September 1993.

Barrett leases the office space housing its other branch offices. At December 31, 1993, such leases had expiration dates ranging from less than one year to six years, with total minimum payments through 1998 of

approximately \$578,000.

<F1> Effective January 1, 1990, the Company changed its fiscal year-end from June 30 to December 31, requiring presentation of financial information for the six-month period ended December 31, 1989.

<F2> The results of each of six companies acquired by the Company between January 1, 1990 and March 31, 1993, have been included since the respective date of its purchase.

<F3> Effective July 1, 1987, the Company elected to be treated as a corporation subject to taxation under Subchapter S of the Code, pursuant to which the net earnings of the Company were taxed directly to the Company's stockholders rather than to the Company. The Company terminated its election on April 30, 1993, and recognized a cumulative net deferred tax asset of \$505,000. Accordingly, the Company was not subject to federal (and some state) corporate income taxation during the periods shown above until May 1, 1993. The amounts shown reflect a pro forma tax provision. For the year ended December 31, 1993, the provision for income taxes was \$437,000, net income was \$2,947,000, and net income per share was \$1.12.

</TABLE>

Years Ended December 31, 1993 and 1992

Temporary and Staff Leasing Services Revenues. Total revenues increased \$20,142,000 (25.1%) to \$100,267,000 for 1993 compared to 1992. The increase in total revenues was attributable to growth in temporary services revenues and staff leasing services revenues of \$7,074,000 (20.4%) and \$13,068,000 (28.8%), respectively.

Moderate economic growth and uncertainty regarding long-term economic prospects increased demand for the Company's temporary services during 1993 compared to 1992. The Company attributes its growth in temporary services revenues to the cost-efficiency of its operations, which permits it to price its services competitively, and to its ability through its branch office network to understand the needs of its customers and fill those needs with competent personnel.

During the first quarter of 1994 the Company expanded its operations through acquisition of two temporary services businesses. The acquired companies had total revenues of approximately \$25,000,000 during 1993, through seven branch offices. See "Liquidity and Capital Resources" below.

Market conditions remained favorable for the Company's staff leasing services in Oregon during 1993, due to a limited number of competitors in this industry and the competitive advantage afforded by the financial incentives offered to the Company's clients for reductions in the cost of workplace injuries.

The Company believes the growth of its staff leasing services is due in part to its ability to assume personnel administration functions while providing employees to clients at an overall cost that is generally less than the clients would have to pay if they carried such employees on their payrolls. The Company's services are cost-effective because of (i) the economies of scale and, in some cases, additional benefits available to it as an employer handling a significantly larger volume of payroll, payroll taxes and fringe benefits as compared to the typical staff of up to 50 employees handled by its staff leasing clients and (ii) the lower cost per employee of the Company's self-insured workers' compensation program in Oregon and Maryland as compared to the third-party insurance coverage its clients typically would otherwise be required to carry. See "Workers Compensation Expense" below.

Payroll Costs, Payroll Taxes and Benefits. Payroll costs, payroll taxes and benefits for the Company's temporary and staff leasing employees increased by \$17,436,000 (25.8%) to \$85,082,000 in 1993 compared to \$67,646,000 in 1992, slightly ahead of the 25.1% growth in total revenues for the same period. The increase in payroll costs, payroll taxes and benefits is primarily attributable to an increase in the number of employees and to higher participation in the Company's fully insured group health plan. On June 1, 1993, the Company replaced its various regional vendors of group health insurance with a single national underwriter to take further advantage of available volume discounts. The Company believes the number of employees participating in its group health plan will continue to rise for the foreseeable future; however, the resulting increase in the Company's benefits costs is expected to be offset by decreases in the statutory payroll tax rates for the Company during 1994.

Workers' Compensation Expense. The Company has been a self-insured employer for workers' compensation coverage in Oregon since August 1987 and became self-insured in Maryland in November 1993. Workers' compensation expense currently includes the costs of self-insurance for the Company's employees in Oregon and Maryland, and third-party insurance coverage for such employees in California and Washington. Self-insurance expenses include case reserves for reported claims, reserves for claims incurred but not reported, loss adjustment expenses, third-party administrator fees, reinsurance premiums, and assessments paid to the States of Oregon and Maryland. Workers' compensation expense increased by \$1,358,000 (42.0%) during 1993 compared to 1992, due primarily to increases in the number of temporary and staff leasing employees in Oregon. Self-insurance expense in Oregon increased by approximately \$1,342,000 in 1993 compared to 1992.

During the third quarter of 1993, the Company submitted applications for self-insurance of its workers' compensation costs for its operations in California and Washington. In January 1994, the Company's application in

California was denied. The Department of Industrial Relations of the State of California ("Department of Industrial Relations") cited as reasons for the denial concerns regarding the Company's financial strength (based on its 1992 audited financial statements) and the effectiveness of its injury and illness prevention program. The Company believes that its audited financial statements at December 31, 1993 will satisfy the Department of Industrial Relations' financial requirements. The Company also plans to submit additional information demonstrating its ability to implement effective injury and illness prevention programs, based on its workplace safety program in Oregon. Accordingly, the Company plans to submit an amended application to the Department of Industrial Relations during the second quarter of 1994. However, there can be no assurance that self-insured status will be granted on terms which are financially feasible to the Company. The State of Washington is scheduled to review the Company's application for workers' compensation self-insurance during the second quarter of 1994.

Upon becoming self-insured, the Company's workers' compensation expense is tied directly to the incidence and severity of workplace injuries to its employees. Significant elements contributing to the success of the workers' compensation program include the regulatory climate surrounding workers' compensation, the Company's workplace safety program and the aggressive claims management approach taken by the Company and its third-party administrators.

Selling, General and Administrative Expenses. Selling, general and administrative expenses (including the provision for doubtful accounts and the amortization of intangibles) consist of compensation and other expenses incident to the operation of the Company's headquarters and branch offices and marketing of its services. These expenses increased 7.6% for 1993 compared to 1992. Of the \$481,000 increase, \$81,000 is attributable to an increase in the provision for doubtful accounts arising from the failure of one of the Company's staff leasing customers in September 1993. As a percentage of total revenues, selling, general and administrative expenses decreased from 7.9% during 1992, to 6.8% during 1993, due to greater utilization of existing branch office capacity and the shift of the Company's business toward staff leasing services, which have lower overhead requirements as compared to temporary services.

Provision and Pro Forma Provision for Income Taxes. The Company was exempt from taxation as an S corporation until its S corporation election was terminated on April 30, 1993. A one-time tax benefit arising from net cumulative temporary differences in the timing of reporting certain deductible items for financial statement and income tax purposes was recognized by the Company as a reduction in its provision for income taxes for the year ended December 31, 1993 in the amount of \$505,000. The pro forma effective tax rate of 39.1% is the effective tax rate that would have been recorded if the Company had been a C corporation for the periods presented. See Note 13 of the Notes to Financial Statements.

Years Ended December 31, 1992 and 1991

Temporary and Staff Leasing Services Revenues. Total revenues increased \$32,135,000 (67.0%) to \$80,125,000 for 1992, compared to 1991. The increase in total revenues was attributable to growth in temporary services revenues and staff leasing services revenues of \$3,640,000 (11.7%) and \$28,495,000 (168.1%), respectively. Staff leasing revenue growth was due primarily to higher volume associated with an increase in the number of staff leasing clients. Approximately one-third of the increase in clients resulted from the acquisition of Employee Leasing of Oregon, Inc. ("ELO"), in December 1991 and American Staff Management, Inc. ("ASM"), in March 1992, with annual aggregate revenues of approximately \$9,000,000. See Note 2 of the Notes to Financial Statements for unaudited pro forma information on the acquisitions.

Payroll Costs, Payroll Taxes and Benefits. Payroll costs, payroll taxes and benefits for the Company's staff leasing and temporary services employees increased by \$27,851,000, or 70.0%, to \$67,646,000 in 1992 compared to 1991, slightly in excess of the 67.0% growth in total revenues for the same period. The increase in payroll cost, payroll taxes and benefits is primarily attributable to an increase in the number of employees. As a percentage of revenue, such costs increased from 82.9% in 1991 to 84.5% in 1992 due to the growth in staff leasing services revenues as a percentage of total revenues.

Workers' Compensation Expense. Workers' compensation expense increased by \$1,275,000, or 65.1%, in 1992 compared to 1991 due primarily to an increase in the number of temporary and staff leasing employees. Self-insurance expense in Oregon increased by 68.3% in 1992 compared to 1991, while premium expense relating to the Company's operations in California, Maryland and Washington increased by 48.0% from 1991 to 1992.

Selling, General and Administrative Expenses. Selling, general and administrative expenses (including the provision for doubtful accounts and the amortization of intangibles) increased by \$1,285,000 (25.4%) to \$6,339,000 in 1992 compared to 1991, due primarily to an increase in the

number of headquarters and branch employees needed to manage the Company's revenue growth. As a percentage of total revenues, selling, general and administrative expenses decreased from 10.5% in 1991 to 7.9% in 1992, due primarily to the shift of the Company's business toward staff leasing services.

Other Income (Expense). The Company had other income of \$19,000 in 1992 as compared to other expense of \$748,000 in 1991, due primarily to material litigation costs incurred in 1991 and to a 56.0% decline in interest expense in 1992 compared to 1991 as a result of lower average borrowings outstanding and a lower interest rate environment.

Pro Forma Provision for Income Taxes. The pro forma effective tax rates would have been 40.6% in 1991 and 39.1% in 1992. The lower tax rate in 1992 was due primarily to a lesser amount of goodwill amortization, which is not tax deductible, compared to 1991.

Seasonal Fluctuations

The Company's revenues historically have been subject to some seasonal fluctuation, particularly in its temporary services business. Demand for the Company's temporary employees and its payroll requirements (and associated mark-ups) for certain of its staff leasing clients decline during the year-end holiday season and periods of bad weather. Correspondingly, demand for temporary services and the operations of some staff leasing clients, particularly agricultural and forest products-based companies, increase during the second and third quarters. Over the past three years, staff leasing revenues represented an increasing share of total revenues, diminishing the effect of seasonal fluctuations as staff leasing clients are engaged in a wide range of industries with varying seasonal demands.

Liquidity and Capital Resources

The Company has financed its operations and met its liquidity needs primarily from cash flow from operations of \$2,905,000 and \$3,415,000 during 1992 and 1993, respectively. The principal uses of funds during 1993 were (i) additional workers' compensation surety deposits required by the States of Oregon and Maryland of \$826,000 and \$600,000, respectively, (ii) cash distributions to shareholders prior to termination of the Company's S corporation status of \$869,000, and (iii) purchase of an office building in May 1993. The building purchase price of \$925,000 was funded in part, on an interim basis, by drawing on the Company's working capital line of credit, which was replaced by permanent long-term mortgage financing in the amount of \$693,750 in August 1993.

Capital expenditures for incidental purposes were approximately \$200,000 in 1992 and \$360,000 in 1993 and are expected to total approximately \$500,000 for 1994. In addition, the Company hopes to expand its self-insured workers' compensation and staff leasing program to California and Washington during the second quarter of 1994. If self-insured status is obtained, the required surety deposits for the two states are expected to total at least \$2,500,000 to be paid from cash or from other funding sources, potentially including letters of credit from the Company's lender and surety bonds from providers of third-party insurance. The Company also has long-term commitments under non-cancelable operating leases which expire at various times through 1999. See Note 9 of the Notes to Financial Statements.

The Company has an unsecured bank line of credit for a maximum amount of \$2,000,000, expiring subject to renewal on May 31, 1994. Outstanding balances against the line of credit accrue interest at the bank's prime rate. The highest borrowing against the line during 1992 and 1993 was \$321,617 and \$1,189,000, respectively. The average balance outstanding against the line for the year ended December 31, 1992 was \$142,000, compared to \$59,000 during 1993. There was a zero balance outstanding under the credit line at December 31, 1992 and 1993. See Note 6 of the Notes to Financial Statements.

On June 18, 1993, the Company completed its underwritten initial public offering of 1,000,000 shares of its common stock at a public offering price of \$7.00 per share. In July 1993, the underwriters exercised an option to purchase 150,000 additional shares of common stock on the same terms to cover over-allotments. Total net proceeds to the Company were \$6,828,000 after deducting underwriting discounts of \$644,000 and other expenses incurred in connection with the offering of \$570,000.

In February 1994, the Company acquired the assets of Personnel Management & Consulting, Inc. ("PMC"), a Maryland corporation, for \$270,000, of which \$42,000 was paid in cash and \$228,000 was paid in the form of 12,000 shares of common stock of the Company. PMC had unaudited revenues of approximately \$800,000 for the year ended December 31, 1993, primarily from sales of temporary services provided through three branch offices, one in each of Salisbury and Easton, Maryland; and in Seaford, Delaware.

In March 1994, the Company acquired the assets of Golden West Temporary Services ("Golden West"), a California corporation, for \$4,514,000 in cash from working capital. Golden West had total revenues of \$24,533,000 for the

year ended December 31, 1993, from the sales of temporary services provided through four branch offices, one in each of San Jose, Santa Clara, Mountain View and Fremont, California.

A key part of the Company's business strategy is continued growth through the expansion of operations at existing offices and the acquisition of additional personnel-related businesses, both in its existing markets and in other geographic areas. The Company actively explores proposals for various acquisition opportunities on an ongoing basis, but there can be no assurance that any additional transactions will be consummated. The Company believes that the unused net proceeds of its stock offering, available credit lines and other sources of financing, and anticipated funds to be generated from operations will be sufficient in the aggregate to provide funds for expansion and its working capital needs for the foreseeable future.

Inflation

Inflation generally has not been a significant factor in the Company's operations during the periods discussed above. The Company has taken into account the impact of escalating medical and other costs in establishing reserves for future expenses for self-insured workers' compensation claims in Oregon and Maryland.

1. Summary of Operations and Significant Accounting Policies

Nature of Operations

Barrett Business Services, Inc. (Barrett or the Company), a Maryland corporation, is engaged in providing temporary staffing and staff leasing services to a diversified group of customers through a network of branch offices throughout western Oregon and in Seattle, Washington; Sacramento; California; and Baltimore, Maryland. Approximately 92% of the Company's revenue during 1992 and 1993 was attributable to its Oregon operations.

Revenue Recognition

The Company recognizes revenue as the services are rendered by its work force. Temporary services are engaged by customers to meet short-term fluctuations in personnel needs. Staff leasing services are normally used by organizations to satisfy ongoing personnel needs and generally involve contracts, with a minimum term of one year renewable annually, covering all employees at a particular work site.

Allowance for Doubtful Accounts

The Company had an allowance for doubtful accounts of \$30,000 and \$25,000 at December 31, 1992 and 1993, respectively.

Marketable Securities

Marketable securities are stated at cost, which approximates fair market value. At December 31, 1992 and 1993, marketable securities consisted primarily of municipal tax anticipation notes and certificates of deposit.

Intangibles

Intangible assets are recorded at cost and are being amortized using the straight-line method over their estimated useful lives ranging from three to 15 years.

Property and Equipment

Property and equipment are stated at cost. Expenditures for maintenance and repairs are charged to operating expense as incurred, and expenditures for additions and betterment are capitalized. The cost of assets sold or otherwise disposed of and the related accumulated depreciation are eliminated from the accounts and any resulting gain or loss is reflected in the Statement of Operations.

Depreciation of property and equipment is calculated using either straight-line or accelerated methods over estimated useful lives ranging from three to 31.5 years.

Customer Safety Incentives Payable

Safety incentives are paid annually to staff leasing clients if the cost of workers' compensation claims is less than agreed upon amounts; amounts paid are based on a percentage of payroll. The Company accrues the amounts

1. Summary of Operations and Significant Accounting Policies (Continued)

Income Taxes

Effective July 1, 1987, the Company elected to be treated as an S Corporation under provisions of the Internal Revenue Code. As such, federal and state income tax regulations provide that the income or losses of the Company were attributable to its stockholders in their individual tax returns. Accordingly, no accrual or provision for income taxes is made in the Company's financial statements for the years ended December 31, 1991 and 1992. Effective April 30, 1993, the Company terminated its S Corporation status. A pro forma provision for income taxes that would have been recorded if the Company had been a C Corporation for all periods presented is provided for comparative purposes in the Statement of Operations.

Customer Deposits

The Company requires deposits from certain staff leasing customers to cover a portion of its accounts receivable due from such customers in case of default.

Cash and Cash Equivalents

The Company considers nonrestricted short-term investments which are highly liquid, are readily convertible into cash and have original maturities less than three months to be cash equivalents for purposes of the Statement of Cash Flows.

Statement of Cash Flows

The Company has recorded the following non-cash transactions:

In September 1992, the Company, for financial reporting purposes, is deemed to have distributed to its stockholders certain non-cash assets and liabilities which aggregated a net liability of \$23,000. See Note 2.

During 1992, notes receivable from a stockholder were extinguished. See Note 11.

Interest paid during 1991, 1992 and 1993 did not differ materially from interest expense.

Income taxes paid by the Company since termination of its S Corporation status totalled \$1,239,600.

Common Stock Split and Change in Authorized Shares

The Company's stockholders approved a 7,968-for-1 split of its common stock, an increase in authorized common shares and the authorization of preferred stock which became effective March 25, 1993. All share and earnings per share amounts have been adjusted to reflect this transaction for all periods presented. Additionally, the par value of common stock was changed to \$.01 from \$10 per share. Common stock and additional paid-in capital have been adjusted to reflect this change.

Pro Forma Net Income Per Share

Net income per share is computed based on the weighted average number of common shares outstanding during the period without giving effect to securities that would otherwise be considered to be common stock equivalents, because such securities aggregate less than 3% of shares outstanding and thus are not considered dilutive.

Notes to Financial Statements

1. Summary of Operations and Significant Accounting Policies (Continued)

Reclassifications

Certain prior year amounts have been reclassified to conform with 1993 presentation. Such reclassifications had no impact on net income or stockholders' equity.

2. Acquisitions

Oregon Temporary Services

In January 1991, a company owned by the chief executive officer of the Company purchased Oregon Temporary Services, Inc. (OTS), a company engaged in the temporary services business. Of the \$300,000 purchase price, \$150,000 was financed through a distribution from the Company to the then sole stockholder, who is the chief executive officer's spouse, and the remaining \$150,000 was payable under a note. Following the acquisition, OTS purchased employee services from Barrett and sold these services to third-party customers.

In November 1991, Barrett began directly servicing certain customers of OTS. By September 1992, all of the OTS customers were serviced by Barrett and, therefore, OTS has recognized no further revenues related to the temporary services business since that time. In September 1992, the Company, for financial reporting purposes, is deemed to have distributed to its stockholders cash of \$438,800 and other assets and liabilities which aggregated a net liability of \$23,000. Additionally, the Company incurred a note payable to the stockholders of \$98,500 for the purchase of certain fixed assets related to OTS which had a net book value of \$71,400. The difference between the note payable and the net book value of such assets of \$27,100 was recorded as a distribution to the stockholders. Subsequent to relinquishing the OTS customers to Barrett, the stockholders invested the remaining net assets of OTS in another business not in the temporary services industry. See Note 1-- Statement of Cash Flows.

Because of the relationship between Barrett and OTS and because Barrett assumed the OTS customers gradually over the period from November 1991 through September 1992 at no cost, the accompanying financial statements as of and for the years ended December 31, 1991 and 1992 present the accounts of Barrett and the temporary services business of OTS as if the Company had purchased OTS in January 1991. As legal entities, OTS and Barrett were not combined; however, due to the common ownership and commingled operations of the two entities, combination for financial statement purposes properly presents the results of operations, cash flows and financial position of the Company. Transactions between Barrett and OTS from February 1991 through September 1992 have been eliminated.

Employee Leasing of Oregon

In November and December 1991, the Company acquired substantially all of the staff leasing customers of Employee Leasing of Oregon, Inc. (ELO). The Company recorded \$95,000 as intangible assets and expensed approximately Barrett Business Services, Inc.

Notes to Financial Statements

\$155,000 paid to the five ELO stockholders for services rendered in transition and delivery of the staff leasing customers to Barrett.

Nancy Horn Personnel Agency

On January 1, 1992, the Company purchased substantially all of the assets of Nancy Horn Personnel Agency (NHPA), a business engaged in the temporary services business. The Company paid cash for NHPA and accounted for the acquisition using the purchase method of accounting. The purchase price of \$65,000 was recorded as intangible assets at the date of acquisition.

American Staff Management

In March 1992, the Company paid the stockholder of American Staff Management, Inc. (ASM) \$25,000 for ASM's customer list. The Company recorded the purchase price as intangible assets.

CDI Corporation-West

In March 1993, the Company acquired a branch office of CDI Corporation-West in Sacramento, California for \$10,000. The purchase was recorded as intangible assets under the purchase method of accounting.

Pro Forma Results of Operations (Unaudited)

The operating results of each of the above acquisitions are included in the Company's results of operations from the respective date of its acquisition. The following unaudited pro forma summary presents the combined results of operations as if the ELO, NHPA and ASM acquisitions had occurred at the beginning of 1991, after giving effect to certain adjustments for the amortization of intangible assets, taxation and cost of capital.

5. Accrued Workers' Compensation Claim Liabilities

During August 1987 and November 1993, the Company became self-insured with respect to workers' compensation claims for all its employees working or living in Oregon and Maryland, respectively. The Company has provided \$1,337,000 and \$2,434,000 at December 31, 1992 and December 31, 1993, respectively, as an estimated liability for unsettled workers' compensation claims. This estimated liability represents management's best estimate which includes, in part, an evaluation of information provided by the Company's third-party administrator and its independent actuary. Included in the claims liabilities are case reserve estimates for reported losses, plus additional amounts based on projections for incurred but not reported claims, allocated loss adjustment expenses and anticipated increases in case reserve estimates. These estimates are continually reviewed and adjustments to liabilities are reflected in current operations as they become known. The Company believes that the difference between amounts recorded at December 31, 1993 for its estimated liability and the possible range of costs of settling related claims is not material to results of operations; nevertheless, it is reasonably possible that adjustments required in future periods would be material to results of operations. The Company has obtained excess workers' compensation insurance to limit its self-insurance liability to \$300,000 per occurrence (\$350,000 for claims after December 31, 1993). The excess insurance provides coverage up to \$10 million per occurrence for claims through December 31, 1993 and unlimited excess coverage for claims after that date.

Barrett Business Services, Inc.

Notes to Financial Statements

The States of Oregon and Maryland require the Company to maintain specified investment balances or other financial instruments, which aggregated \$1,300,000 at December 31, 1992 and \$2,761,000 at December 31, 1993 to cover potential claims losses. To partially meet this requirement at December 31, 1993, the Company holds a \$300,000 surety bond guaranteed by an irrevocable standby letter of credit. The investments are included in restricted marketable securities and workers' compensation deposits in the accompanying Balance Sheet.

5. Accrued Workers' Compensation Claim Liabilities (Continued)

The workers' compensation expense in the accompanying Statement of Operations consists of \$1,652,000, \$2,780,000 and \$4,071,000 for self-insurance expense in Oregon in 1991, 1992 and 1993, respectively, and \$4,000 for Maryland in 1993. Premiums in the insured states were \$306,000, \$453,000 and \$516,000 for 1991, 1992 and 1993, respectively.

6. Bank Line of Credit

On August 12, 1993, the Company entered into a new bank line of credit which expires on May 31, 1994. Pursuant to the amended loan agreement, the line of credit permits total borrowings of up to \$2,000,000. The interest rate on outstanding balances is at the prime rate. The new line of credit is unsecured. Under the amended loan agreement, the Company is required to maintain (i) a ratio of total liabilities to tangible net worth of not more than 1.25 to 1.0, (ii) positive quarterly income before taxes, (iii) tangible net worth of at least \$7,120,000, and (iv) a zero outstanding balance against the line for a minimum of 60 consecutive days during each year. The Company is also prohibited from pledging any of its assets other than existing mortgages on its real property. There were no borrowings outstanding under the line of credit at December 31, 1992 or 1993.

During the years ended December 31, 1991, 1992 and 1993, the maximum balances outstanding under the line of credit were \$1,248,362, \$321,617 and \$1,189,000, respectively, the average balance outstanding was \$768,000, \$142,000 and \$59,000, respectively, and the weighted average interest rate during the period was 9.8%, 7.0% and 6.6%, respectively. The weighted average interest rate during the period is calculated using daily weighted averages.

Accordingly, a provision for the settlement of \$600,000 was made in the accompanying financial statements for the year ended December 31, 1991. Barrett Business Services, Inc.

Notes to Financial Statements

11. Related Party Transactions

During 1991, 1992 and 1993, the Company recorded revenues of \$1,940,000, \$2,249,000 and \$2,404,000, respectively, and cost of revenues of \$1,724,000, \$2,116,000 and \$2,316,000, respectively, for providing services to a company of which a director of the Company is president and majority stockholder. At December 31, 1992 and 1993, Barrett had receivables from this company of \$84,000 and \$117,000, respectively.

During 1992 and 1993, the Company recorded revenues of \$47,000 and \$480,000, respectively, and cost of revenues of \$45,000 and \$475,000, respectively, for providing staff leasing services to a company owned by the chief executive officer, a stockholder. At December 31, 1992 and 1993, Barrett had recorded a receivable from this company of \$114,000 and \$35,000, respectively.

As further described in Note 7, the Company has a note payable to the estate of the former majority stockholder, who was the late mother of a current stockholder. The Company was obligated to make annual payments to the former director and majority stockholder until her death in 1993 in recognition of her past services and in return for non-competition covenants. The payments were adjusted annually for increases in the Consumer Price Index for All Items--U.S. National Average. The Company accounted for this arrangement as a defined benefit plan. Under the plan, net pension costs were approximately \$40,000 for each of 1991 and 1992.

At December 31, 1993, the chief executive officer of the Company, pursuant to the approval of a majority of the disinterested outside directors, agreed to personally guarantee, at no cost to the Company, the repayment of a \$111,000 receivable from an unrelated, insolvent customer. The Company will exercise this guarantee at such time as the Company determines that further collection efforts are likely to be ineffective, but not later than December 31, 1995.

A director of the Company is Vice Chairman of the board of directors of the bank that provides the Company's unsecured working capital line of credit and certain mortgage financing. In addition to other banking business, the bank is the Transfer Agent for the Company's common stock. See Notes 6 and 7.

In March 1994, the Company acquired the assets of Golden West Temporary Services ("Golden West"), a California corporation, for \$4,514,000 in cash from working capital. Golden West had total revenues of \$24,533,000 for the year ended December 31, 1993, from the sales of temporary services provided through four branch offices. The accompanying pro forma balance sheet and statement of operations assume the acquisition took effect January 1, 1993.

Pro Forma Adjustments

The combined pro forma financial statements reflect the following adjustments: (i) the purchase price of \$4,514,000, paid in cash from working capital, and the resulting increase in intangibles and equipment of \$4,425,000 and \$89,000, respectively, (ii) additional amortization and depreciation expense attributable to the acquired assets, (iii) elimination of interest expense and other nonrecurring operating costs, and (iv) the anticipated tax effect of the additional earnings.

INDEPENDENT ACCOUNTANTS' REPORT

We have audited the accompanying balance sheets of Golden West Temporary Services as of December 31, 1993 and 1992, and the related statements of income, changes in stockholders' equity, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Golden West Temporary Services as of December 31, 1993 and 1992, and the results of its operations and its cash flows for the years then ended, in conformity with generally accepted accounting principles.

Nature of Business

Golden West Temporary Services (Company) provides temporary and permanent placement contract labor services to various industries in the San Francisco Bay Area. The majority of the Company's accounts receivable are from high technology companies.

Significant Accounting Policies

Depreciation and amortization:

Office equipment and the automobile are depreciated using the double declining balance method over estimated useful lives of three to seven years. Leasehold improvements are amortized over the lesser of the original term of the facility leases or estimated useful lives of the assets. Maintenance and repairs are charged to expense as incurred.

Goodwill is amortized using the straight-line method over 20 years.

Income taxes:

Effective January 1, 1992, the Company adopted Statement of Financial Accounting Standards No. 109 (SFAS 109). SFAS 109 calls for measuring the provisions for income taxes and recognizing deferred tax assets and liabilities on the balance sheet using the liability method.

Concentration of credit risk:

The Company maintains approximately \$40,000 and \$108,000, respectively, in two commercial banks located in California. These cash deposits are secured by the Federal Deposit Insurance Corporation (FDIC) up to \$100,000 per bank.

Statements of cash flows:

For purposes of this statement, cash represents bank demand and money market accounts.

2. Major Customer

During 1993, the Company recognized revenues of approximately \$6,900,000 from one customer, of which \$808,000 was outstanding at December 31, 1993. No major customers existed at December 31, 1992.

GOLDEN WEST TEMPORARY SERVICES
NOTES TO FINANCIAL STATEMENTS

3. Bank Borrowings

The Company has a bank revolving credit agreement which provides for borrowings of up to \$1,500,000 for general working capital purposes. Borrowings under this agreement bear interest at the bank's reference rate (6% at December 31, 1993) and are secured by the Company's accounts receivable and equipment. The agreement is renewable on April 30, 1994 and requires the Company to maintain certain financial covenants.

4. Income Taxes

The Company operates for Federal income and California franchise tax purposes as an S-Corporation. As a result, the Company does not provide for Federal income taxes, and California franchise taxes are provided for at a 2-1/2% tax rate (1.5% for 1994 and future years). The stockholders are responsible to report, at the individual level, their pro rata share of taxable income and other items affecting taxable income.

The deferred income taxes reflect the differences in the timing of reporting results of operations for California franchise tax and financial accounting purposes. Deferred taxes arise principally from differences between the cash basis California franchise taxable income and the accrual basis pre-tax accounting income.

The effective rate of 3.1% for 1993 differs from the statutory rate of 2.5% as a result of the implementation of SFAS 109.

The provision for income taxes consists of the following:

5. Lease Commitments

The Company leases office space located in Santa Clara, Mountain View, San Jose, and Fremont, California. These leases are noncancellable operating leases expiring from December 1994 to December 1997. The Santa Clara lease contains an option to renew up through December 1998. Rent expense was approximately \$113,000 in 1993 (\$123,000 in 1992).

(iii) Seller agrees that the forgoing restrictions are reasonable under the circumstances, considering the fact that Seller is selling to Buyer the Business; however, if it shall be finally determined by any court of competent jurisdiction that the scope or duration of the restrictions is unreasonable, then the court so holding may enforce such reasonable restrictions as the court deems necessary to protect the rights and interests of the Buyer to the fullest extent permissible by law.

(iv) In the event that the time for which the obligations of Seller under this subparagraph 8.1(b) are reduced as a result of any legal action, claim, request for relief or legislative enactment, the amounts to be paid, if any, in accordance with subparagraph 6.2 above shall not be reduced or otherwise modified unless such reduction in time results from any legal action initiated by Seller.

(v) Seller acknowledges that any violation of the provisions of this subparagraph 8.1(b) will cause serious and irreparable damage to Buyer. Seller further acknowledges that it might not be possible to measure such damages in money. Accordingly, Seller further acknowledges that, in the event of breach or threatened breach of the provisions of this subparagraph 8.1(b) Buyer, in addition and as a supplement to such other rights and remedies, including recovery of money damages, may seek an injunction or restraining order, restraining Seller from performing any act in violation of the provisions of this subparagraph 8.1(b).

Buyer shall, at all times, also have the right to fully participate in the defense, at its own expense. If Seller, within a reasonable time after that notice, but not later than 15 days, fails to defend, the Buyer shall have the right, but not the obligation to, undertake the defense of, and to compromise or settle (exercising reasonable business judgment) the Losses or other matter on behalf, for the account, and at the risk, of the Seller.

(c) Indemnification by Buyer. Buyer shall indemnify Seller and hold Seller harmless, on an after-tax basis, from and against any and all Losses to which Seller may be subjected or which Seller may incur resulting or arising out of:

(iii) the conduct of the Business after the Closing Date.

The Seller shall promptly notify the Buyer of the existence of any Losses or other matter to which Buyer's indemnification obligation would apply, and give the Buyer a reasonable opportunity to defend the same at Buyer's own expense, and with counsel of Buyer's own selection reasonably satisfactory to Seller. Seller shall, at all times, also have the right to fully participate in the defense, at its own expense. If Buyer, within a reasonable time after that notice, but no later than 15 days, fails to defend, the Seller shall have the right, but not the obligation to, undertake the defense of, and to compromise or settle (exercising reasonable business judgment) the Losses or other matter on behalf, for the account, and at the risk, of the Buyer.

If an Award under the Plan is canceled or expires for any reason prior to having been fully Vested or exercised by a Participant or is settled in cash in lieu of Shares or is exchanged for other Awards, all Shares covered by such Awards shall be made available for future Awards under the Plan.

ARTICLE 5

ELIGIBILITY

5.1 Employees and Non-Employee Subsidiary Directors. Officers and other key employees of Corporation and its Subsidiaries (including employees who may also be directors of Corporation or a Subsidiary), Consultants, and Non-Employee Subsidiary Directors who, in the Committee's judgment, are or will be contributors to the long-term success of Corporation shall be eligible to receive Awards under the Plan.

5.2 Non-Employee Board Directors. All Non-Employee Board Directors shall be eligible to receive Director Options pursuant to Article 14 of the Plan.

ARTICLE 6

AWARDS

6.1 Types of Awards. The types of Awards that may be granted under the Plan are:

(a) Options governed by Article 7 of the Plan;

(b) Stock Appreciation Rights governed by

Article 8 of the Plan;

(c) Restricted Awards governed by Article 9 of the Plan;

(d) Performance Awards governed by Article 10 of the Plan;

(e) Other Stock-Based Awards or combination awards governed by Article 11 of the Plan; and

(f) Director Options governed by Article 14 of the Plan.

In the discretion of the Committee, any Award (other than a Director Option) may be granted alone, in addition to, or in tandem with other Awards under the Plan.

6.2 General. Subject to the limitations of the Plan, the Committee may cause Corporation to grant Awards to such Participants, at such times, of such types, in such amounts, for such periods, with such option prices, purchase prices, or base prices, and subject to such terms, conditions, limitations, and restrictions as the Committee, in its discretion, shall deem appropriate. Awards may be granted as additional compensation to a Participant or in lieu of other compensation to such Participant. A Participant may receive more than one Award and more than one type of Award under the Plan.

6.3 Nonuniform Determinations. The Committee's determinations under the Plan or under one or more Award Agreements, including without limitation, (a) the selection of Participants to receive Awards, (b) the type, form, amount, and timing of Awards, (c) the terms of specific Award Agreements, and (d) elections and determinations made by the Committee with respect to exercise or payments of Awards, need not be uniform and may be made by the Committee selectively among Participants and Awards, whether or not Participants are similarly situated.

6.4 Award Agreements. Each Award shall be evidenced by a written Award Agreement between Corporation and the Participant. Award Agreements may, subject to the provisions of the Plan, contain any provision approved by the Committee.

6.5 Provisions Governing All Awards. All Awards shall be subject to the following provisions:

(a) Alternative Awards. If any Awards are designated in their Award Agreements as alternative to each other, the exercise of all or part of one Award automatically shall cause an immediate equal (or pro rata) corresponding termination of the other alternative Award or Awards.

(b) Rights as Shareholders. No Participant shall have any rights of a shareholder with respect to Shares subject to an Award until such Shares are issued in the name of the Participant.

(c) Employment Rights. Neither the adoption of the Plan nor the granting of any Award shall confer on any person the right to continued employment with Corporation or any Subsidiary or the right to remain as a director of or a Consultant to Corporation or any Subsidiary, as the case may be, nor shall it interfere in any way with the right of Corporation or a Subsidiary to terminate such person's employment or to remove such person as a Consultant or as a director at any time for any reason, with or without cause.

(d) Nontransferable. Each Award (other than Restricted Shares after they Vest) shall not be transferable otherwise than by will or the laws of descent and distribution and shall be exercisable (if exercise is required) during the lifetime of the Participant, only by the Participant or, in the event the Participant becomes legally incompetent, by the Participant's guardian or legal representative.

(e) Termination of Employment. The terms and conditions under which an Award may be exercised, if at all, after a Participant's termination of employment or service as a Non-Employee Subsidiary Director or a Consultant shall be determined by the Committee and specified in the applicable Award Agreement.

(f) Change in Control. The Committee, in its discretion, may provide in any Award Agreement that in

the event of a change in control of Corporation (as the Committee may define such term in the Award Agreement), as of the date of such change in control:

(i) All, or a specified portion of, Awards requiring exercise shall become fully and immediately exercisable, notwithstanding any other limitations on exercise;

(ii) All, or a specified portion of, Awards subject to Restrictions shall become fully Vested; and

(iii) All, or a specified portion of, Awards subject to Performance Goals shall be deemed to have been fully earned.

Unless the Committee specifically provides otherwise in the change in control provision for a specific Award Agreement, Awards shall become exercisable, become Vested, or become earned as of a change in control date only if, or to the extent, such acceleration in the exercisability, Vesting, or becoming earned of the Awards does not result in an "excess parachute payment" within the meaning of Section 280G(b) of the Code. The Committee, in its discretion, may include change in control provisions in some Award Agreements and not in others, may include different change in control provisions in different Award Agreements, and may include change in control provisions for some Awards or some Participants and not for others.

(g) Conditioning or Accelerating Benefits. The Committee, in its discretion, may include in any Award Agreement a provision conditioning or accelerating the Vesting of an Award or the receipt of benefits pursuant to an Award, either automatically or in the discretion of the Committee, upon the occurrence of specified events including, without limitation, a change in control of Corporation (subject to the foregoing paragraph (f)), a sale of all or substantially all the property and assets of Corporation, or an event of the type described in Section 15 of this Plan.

(h) Payment of Purchase Price and Withholding. The Committee, in its discretion, may include in any Award Agreement a provision permitting the Participant to pay the purchase or option price, if any, for the Shares or other property issuable pursuant to the Award, or the Participant's federal, state, or local tax, or tax withholding, obligation with respect to such issuance in whole or in part by any one or more of the following:

(i) By delivering previously owned Shares (including Restricted Shares, whether or not vested);

(ii) By surrendering outstanding other Vested Awards under the Plan denominated in Shares or in Share equivalent units;

(iii) By reducing the number of Shares or other property otherwise Vested and issuable pursuant to the Award;

(iv) By delivering to Corporation a promissory note payable on such terms and over such period as the Committee shall determine;

(v) By delivery (in a form approved by the Committee) of an irrevocable direction to a securities broker acceptable to the Committee:

(A) To sell Shares subject to the Option and to deliver all or a part of the sales proceeds to Corporation in payment of all or a part of the option price and taxes or withholding taxes attributable to the issuance; or

(B) To pledge Shares subject

to the Option to the broker as security for a loan and to deliver all or a part of the loan proceeds to Corporation in payment of all or a part of the option price and taxes or withholding taxes attributable to the issuance; or

(vi) In any combination of the foregoing or in any other form approved by the Committee.

If Restricted Shares are surrendered in full or partial payment of the purchase or option price of Shares issuable under an Award, a corresponding number of the Shares issued upon exercise of the Award shall be Restricted Shares subject to the same Restrictions as the surrendered Restricted Shares. Shares withheld or surrendered as described above shall be valued based on their Fair Market Value on the date of the transaction. Any Shares withheld or surrendered with respect to a Reporting Person shall be subject to such additional conditions and limitations as the Committee may impose to comply with the requirements of the Exchange Act.

(i) Reporting Persons. With respect to all Awards granted to Reporting Persons:

(i) Awards requiring exercise shall not be exercisable until at least six months after the date the Award was granted, except in the case of the death or Disability of the Participant; and

(ii) Shares issued pursuant to any other Award may not be sold by the Participant for at least six months after acquisition, except in the case of the death or Disability of the Participant;

provided, however, that (unless an Award Agreement provides otherwise) the limitation of this Section 6.5(i) shall apply only if or to the extent required by Rule 16b-3 under the Exchange Act. Award Agreements for Awards to Reporting Persons shall also comply with any future restrictions imposed by such Rule 16b-3.

(j) Service Periods. At the time of granting Awards, the Committee may specify, by resolution or in the Award Agreement, the period or periods of service performed or to be performed by the Participant in connection with the grant of the Award.

ARTICLE 7 OPTIONS

7.1 Types of Options. Options granted under the Plan may be in the form of Incentive Stock Options or Nonqualified Options (including Deferred Compensation Options and Director Options). The grant of each Option and the Award Agreement governing each Option shall identify the Option as an ISO or an NQO. In the event the Code is amended to provide for tax-favored forms of stock options other than or in addition to Incentive Stock Options, the Committee may grant Options under the Plan meeting the requirements of such forms of options.

7.2 General. Options shall be subject to the terms and conditions set forth in Article 6 and this Article 7 and Award Agreements governing Options shall contain such additional terms and conditions, not inconsistent with the express provisions of the Plan, as the Committee shall deem desirable.

7.3 Option Price. Each Award Agreement for Options shall state the option exercise price per Share of Common Stock purchasable under the Option, which shall not be less than:

(a) \$.01 per share in the case of a Deferred Compensation Option;

(b) 75 percent of the Fair Market Value of a Share on the date of grant for all other Nonqualified Options (except Director Options); or

(c) 100 percent of the Fair Market Value of a Share on the date of grant for all Incentive Stock

Options.

7.4 Option Term. The Award Agreement for each Option shall specify the term of each Option, which may be unlimited or may have a specified period during which the Option may be exercised, as determined by the Committee.

7.5 Time of Exercise. The Award Agreement for each Option shall specify, as determined by the Committee:

(a) The time or times when the Option shall become exercisable and whether the Option shall become exercisable in full or in graduated amounts based on: (i) continuation of employment over a period specified in the Award Agreement, (ii) satisfaction of performance goals or criteria specified in the Award Agreement, or (iii) a combination of continuation of employment and satisfaction of performance goals or criteria;

(b) Such other terms, conditions, and restrictions as to when the Option may be exercised shall be determined by the Committee; and

(c) The extent, if any, that the Option shall remain exercisable after the Participant ceases to be an employee, Consultant, or director of Corporation or a Subsidiary.

An Award Agreement for an Option may, in the discretion of the Committee, provide whether, and to what extent, the time when an Option becomes exercisable shall be accelerated or otherwise modified (i) in the event of the death, Disability, or Retirement of the Participant, or (ii) upon the occurrence of a change in control of Corporation. The Committee may, at any time in its discretion, accelerate the time when all or any portion of an outstanding Option becomes exercisable.

7.6 Special Rules for Incentive Stock Options. In the case of an Option designated as an Incentive Stock Option, the terms of the Option and the Award Agreement shall conform with the statutory and regulatory requirements specified pursuant to Section 422 of the Code, as in effect on the date such ISO is granted. ISOs may be granted only to employees of Corporation or a Subsidiary. ISOs may not be granted under the Plan after ten years following the date specified in Section 4.1, unless the ten-year limitation of Section 422(b)(2) of the Code is removed or extended.

7.7 Restricted Shares. In the discretion of the Committee, the Shares issuable upon exercise of an Option may be Restricted Shares if so provided in the Award Agreement for the Option.

7.8 Deferred Compensation Options. The Committee may, in its discretion, grant Deferred Compensation Options with an option price less than Fair Market Value to provide a means for deferral to future dates of compensation otherwise payable to a Participant. The option price shall be determined by the Committee subject to Section 7.3(a) of the Plan. The number of Shares subject to a Deferred Compensation Option shall be determined by the Committee, in its discretion, by dividing the amount of compensation to be deferred by the difference between the Fair Market Value of a Share on the date of grant and the option price of the Deferred Compensation Option. Amounts of compensation deferred with Deferred Compensation Options may include amounts payable under Awards granted under the Plan or under any other compensation program or arrangement of Corporation as permitted by the Committee. The Committee shall grant Deferred Compensation Options only if it reasonably determines that the recipient of such an Option is not likely to be deemed to be in constructive receipt for income tax purposes of the income being deferred.

7.9 Reload Options. The Committee, in its discretion, may provide in an Award Agreement for an Option that in the event all or a portion of the Option is exercised by the Participant using previously acquired Shares, the Participant shall automatically be granted (subject to the available pool of Shares subject to grants of Awards as specified in Section 4.2 of the Plan) a replacement Option (with an option price equal to the Fair Market Value of a Share on the date of such exercise) for a number of Shares equal to (or equal to a portion of) the number of shares surrendered upon exercise of the Option. Such reload Option features may be subject to such terms and conditions as the Committee shall determine, including without limitation, a condition that the Participant retain the Shares issued upon exercise of the Option for a specified period of time.

ARTICLE 8
STOCK APPRECIATION RIGHTS

8.1 General. Stock Appreciation Rights shall be subject to

the terms and conditions set forth in Article 6 and this Article 8 and Award Agreements governing Stock Appreciation Rights shall contain such additional terms and conditions, not inconsistent with the express terms of the Plan, as the Committee shall deem desirable.

8.2 Nature of Stock Appreciation Right. A Stock Appreciation Right is an Award entitling a Participant to receive an amount equal to the excess (or, if the Committee shall determine at the time of grant, a portion of the excess) of the Fair Market Value of a Share of Common Stock on the date of exercise of the SAR over the base price, as described below, on the date of grant of the SAR, multiplied by the number of Shares with respect to which the SAR shall have been exercised. The base price shall be designated by the Committee in the Award Agreement for the SAR and may be the Fair Market Value of a Share on the grant date of the SAR or such other higher or lower price as the Committee shall determine.

8.3 Exercise. A Stock Appreciation Right may be exercised by a Participant in accordance with procedures established by the Committee. The Committee may also provide that a SAR shall be automatically exercised on one or more specified dates or upon the satisfaction of one or more specified conditions. In the case of SARs granted to Reporting Persons, exercise of the SAR shall be limited by the Committee to the extent required to comply with the applicable requirements of Rule 16b-3 under the Exchange Act.

8.4 Form of Payment. Payment upon exercise of a Stock Appreciation Right may be made in cash, in installments, in Shares, by issuance of a Deferred Compensation Option, or in any combination of the foregoing, or in any other form as the Committee shall determine.

ARTICLE 9 RESTRICTED AWARDS

9.1 Types of Restricted Awards. Restricted Awards granted under the Plan may be in the form of either Restricted Shares or Restricted Units.

(a) Restricted Shares. A Restricted Share is an Award of Shares transferred to a Participant subject to such terms and conditions as the Committee deems appropriate, including, without limitation, restrictions on the sale, assignment, transfer, or other disposition of such Restricted Shares and may include a requirement that the Participant forfeit such Restricted Shares back to Corporation upon termination of Participant's employment (or service as a Non-Employee Subsidiary Director or a Consultant) for specified reasons within a specified period of time or upon other conditions, as set forth in the Award Agreement for such Restricted Shares. Each Participant receiving a Restricted Share shall be issued a stock certificate in respect of such Shares, registered in the name of such Participant, and shall execute a stock power in blank with respect to the Shares evidenced by such certificate. The certificate evidencing such Restricted Shares and the stock power shall be held in custody by Corporation until the Restrictions thereon shall have lapsed.

(b) Restricted Units. A Restricted Unit is an Award of units (with each unit having a value equivalent to one Share) granted to a Participant subject to such terms and conditions as the Committee deems appropriate, and may include a requirement that the Participant forfeit such Restricted Units upon termination of Participant's employment (or service as a Non-Employee Subsidiary Director or a Consultant) for specified reasons within a specified period of time or upon other conditions, as set forth in the Award Agreement for such Restricted Units.

9.2 General. Restricted Awards shall be subject to the terms and conditions of Article 6 and this Article 9 and Award Agreements governing Restricted Awards shall contain such additional terms and conditions, not inconsistent with the express provisions of the Plan, as the Committee shall deem desirable.

9.3 Restriction Period. Award Agreements for Restricted Awards shall provide that Restricted Awards, and the Shares subject to Restricted Awards, may not be transferred, and may provide that, in order for a Participant to Vest in such Restricted Awards, the Participant must remain in the employment (or remain as a Non-Employee Subsidiary Director or a Consultant) of Corporation or its Subsidiaries, subject to relief for reasons specified in the Award Agreement, for a period commencing on the

grant date of the Award and ending on such later date or dates as the Committee may designate at the time of the Award (the "Restriction Period"). During the Restriction Period, a Participant may not sell, assign, transfer, pledge, encumber, or otherwise dispose of Shares received under or governed by a Restricted Award grant. The Committee, in its sole discretion, may provide for the lapse of restrictions in installments during the Restriction Period. Upon expiration of the applicable Restriction Period (or lapse of Restrictions during the Restriction Period where the Restrictions lapse in installments) the Participant shall be entitled to settlement of the Restricted Award or portion thereof, as the case may be. Although Restricted Awards shall usually Vest based on continued employment (or service as a Non-Employee Subsidiary Director or a Consultant) and Performance Awards under Article 10 shall usually Vest based on attainment of Performance Goals, the Committee, in its discretion, may condition Vesting of Restricted Awards on attainment of Performance Goals as well as continued employment (or service as a Non-Employee Subsidiary Director or a Consultant). In such case, the Restriction Period for such a Restricted Award shall include the period prior to satisfaction of the Performance Goals.

9.4 Forfeiture. If a Participant ceases to be an employee (or Consultant or Non-Employee Subsidiary Director) of Corporation or a Subsidiary during the Restriction Period for any reason other than reasons which may be specified in an Award Agreement (such as death, Disability, or Retirement) the Award Agreement may require that all non-Vested Restricted Awards previously granted to the Participant be forfeited and returned to Corporation.

9.5 Settlement of Restricted Awards.

(a) Restricted Shares. Upon Vesting of a Restricted Share Award, the legend on such Shares will be removed and the Participant's stock power will be returned and the Shares will no longer be Restricted Shares. The Committee may also, in its discretion, permit a Participant to receive, in lieu of unrestricted Shares at the conclusion of the Restriction Period, payment in cash, installments, or by issuance of a Deferred Compensation Option equal to the Fair Market Value of the Restricted Shares as of the date the Restrictions lapse.

(b) Restricted Units. Upon Vesting of a Restricted Unit Award, a Participant shall be entitled to receive payment for Restricted Units in an amount equal to the aggregate Fair Market Value of the Shares covered by such Restricted Units at the expiration of the Applicable Restriction Period. Payment in settlement of a Restricted Unit shall be made as soon as practicable following the conclusion of the applicable Restriction Period in cash, in installments, in Shares equal to the number of Restricted Units, by issuance of a Deferred Compensation Option, or in any other manner or combination of such methods as the Committee, in its sole discretion, shall determine.

9.6 Rights as a Shareholder. A Participant shall have, with respect to unforfeited Shares received under a grant of Restricted Shares, all the rights of a shareholder of Corporation, including the right to vote the shares, and the right to receive any cash dividends. Stock dividends issued with respect to Restricted Shares shall be treated as additional Shares covered by the grant of Restricted Shares and shall be subject to the same Restrictions.

ARTICLE 10 PERFORMANCE AWARDS

10.1 General. Performance Awards shall be subject to the terms and conditions set forth in Article 6 and this Article 10 and Award Agreements governing Performance Awards shall contain such other terms and conditions not inconsistent with the express provisions of the Plan, as the Committee shall deem desirable.

10.2 Nature of Performance Awards. A Performance Award is an Award of units (with each unit having a value equivalent to one Share) granted to a Participant subject to such terms and conditions as the Committee deems appropriate, including, without limitation, the requirement that the Participant forfeit such Performance Award or a portion thereof in the event specified performance criteria are not met within a designated period of time.

10.3 Performance Cycles. For each Performance Award, the Committee shall designate a performance period (the "Performance Cycle") with a duration to be determined by the Committee in its discretion within which specified Performance Goals are to be attained. There may be several Performance Cycles in existence at any one time and the duration of Performance Cycles may differ from each other.

10.4 Performance Goals. The Committee shall establish Performance Goals for each Performance Cycle on the basis of such criteria and to accomplish such objectives as the Committee may from time to time

select. Performance Goals may be based on (i) performance criteria for Corporation, a Subsidiary, or an operating group, (ii) a Participant's individual performance, or (iii) a combination of both. Performance Goals may include objective and subjective criteria. During any Performance Cycle, the Committee may adjust the Performance Goals for such Performance Cycle as it deems equitable in recognition of unusual or nonrecurring events affecting Corporation, changes in applicable tax laws or accounting principles, or such other factors as the Committee may determine.

10.5 Determination of Awards. As soon as practicable after the end of a Performance Cycle, the Committee shall determine the extent to which Performance Awards have been earned on the basis of performance in relation to the established Performance Goals.

10.6 Timing and Form of Payment. Settlement of earned Performance Awards shall be made to the Participant as soon as practicable after the expiration of the Performance Cycle and the Committee's determination under Section 10.5, in the form of cash, installments, Shares, Deferred Compensation Options, or any combination of the foregoing or in any other form as the Committee shall determine.

ARTICLE 11 OTHER STOCK-BASED AND COMBINATION AWARDS

11.1 Other Stock-Based Awards. The Committee may grant other Awards under the Plan pursuant to which Shares are or may in the future be acquired, or Awards denominated in or measured by Share equivalent units, including Awards valued using measures other than the market value of Shares. Other Stock-Based Awards are not restricted to any specified form or structure and may include, without limitation, Share purchase warrants, other rights to acquire Shares, and securities convertible into or redeemable for Shares. Such Other Stock-Based Awards may be granted either alone, in addition to, or in tandem with, any other type of Award granted under the Plan.

11.2 Combination Awards. The Committee may also grant Awards under the Plan in tandem or combination with other Awards or in exchange of Awards, or in tandem or combination with, or as alternatives to, grants or rights under any other employee plan of Corporation, including the plan of any acquired entity. No action authorized by this section shall reduce the amount of any existing benefits or change the terms and conditions thereof without the Participant's consent.

ARTICLE 12 DEFERRAL ELECTIONS

The Committee may permit a Participant to elect to defer receipt of the payment of cash or the delivery of Shares that would otherwise be due to such Participant by virtue of the exercise, earn out, or Vesting of an Award made under the Plan. If any such election is permitted, the Committee shall establish rules and procedures for such payment deferrals, including, but not limited to: (a) payment or crediting of reasonable interest or other growth or earnings factor on such deferred amounts credited in cash, (b) the payment or crediting of dividend equivalents in respect of deferrals credited in Share equivalent units, or (c) granting of Deferred Compensation Options.

ARTICLE 13 DIVIDEND EQUIVALENTS

Any Awards may, at the discretion of the Committee, earn dividend equivalents. In respect of any such Award which is outstanding on a dividend record date for Common Stock, the Participant may be credited with an amount equal to the amount of cash or stock dividends that would have been paid on the Shares covered by such Award, had such covered Shares been issued and outstanding on such dividend record date. The Committee shall establish such rules and procedures governing the crediting of dividend equivalents, including the timing, form of payment, and payment contingencies of such dividend equivalents, as it deems are appropriate or necessary.

ARTICLE 14 NON-EMPLOYEE BOARD DIRECTORS

14.1 General. Awards shall be made to Non-Employee Board Directors only pursuant to this Article 14. All Non-Employee Board Directors shall receive Initial Director Options and Annual Director Options. No person, including the members of the Board or the Committee, shall have any discretion as to the selection of eligible recipients or the determination of the type, amount, or terms of Awards pursuant to this Article 14.

14.2 Eligibility. The persons eligible to receive Awards pursuant to this Article 14 are all Non-Employee Board Directors of Corporation.

14.3 Definitions. For purposes of this Article 14, the following terms shall have the meanings set forth below:

"Annual Meeting Date" means the date of Corporation's regular annual meeting of shareholders.

"Offering Date" means the closing date of Corporation's initial public offering of Shares pursuant to a registration statement which has become effective under the Securities Act of 1933.

14.4 Initial Director Options.

(a) Grant of Initial Director Options. As of the Offering Date, each Non-Employee Board Director who is a member of the Board on the Offering Date shall be granted automatically an Initial Director Option to purchase 1,500 Shares.

(b) Option Price. The option purchase price for each Initial Director Option shall be equal to the public offering price of a Share.

(c) Terms of Initial Director Options. Each Initial Director Option shall have the terms and conditions specified in the form of Award Agreement attached to this Plan as Appendix A.

14.5 Annual Director Options.

(a) Grant of Annual Director Options. As of each Annual Meeting Date, each Non-Employee Board Director whose term begins on or continues after that Annual Meeting Date shall be granted automatically an Annual Director Option to purchase 500 Shares.

(b) Option Price. The option exercise price for each Annual Director Option shall be equal to the Fair Market Value of a Share as of the Annual Meeting Date.

(c) Terms of Annual Director Options. Each Annual Director Option shall have the terms and conditions specified in the form of Award Agreement attached to this Plan as Appendix A.

ARTICLE 15

ADJUSTMENTS UPON CHANGES IN CAPITALIZATION, ETC.

15.1 Plan Does Not Restrict Corporation. The existence of the Plan and the Awards granted under the Plan shall not affect or restrict in any way the right or power of the Board or the shareholders of Corporation to make or authorize any adjustment, recapitalization, reorganization, or other change in Corporation's capital structure or its business, any merger or consolidation of the Corporation, any issue of bonds, debentures, preferred or prior preference stocks ahead of or affecting Corporation's capital stock or the rights thereof, the dissolution or liquidation of Corporation or any sale or transfer of all or any part of its assets or business, or any other corporate act or proceeding.

15.2 Adjustments by the Committee. In the event of any change in capitalization affecting the Common Stock of Corporation, such as a stock dividend, stock split, recapitalization, merger, consolidation, split-up, combination or exchange of shares or other form of reorganization, or any other change affecting the Common Stock, such proportionate adjustments, if any, as the Committee, in its sole discretion, may deem appropriate to reflect such change, shall be made with respect to the aggregate number of Shares for which Awards in respect thereof may be granted under the Plan, the maximum number of Shares which may be sold or awarded to any Participant, the number of Shares covered by each outstanding Award, and the base price or purchase price per Share in respect of outstanding Awards. The Committee may also make such adjustments in the number of Shares covered by, and price or other value of any outstanding Awards in the event of a spin-off or other distribution (other than normal cash dividends), of Corporation assets to shareholders.

ARTICLE 16

AMENDMENT AND TERMINATION

Without further approval of Corporation's shareholders, the Board may at any time terminate the Plan, or may amend it from time to time in such respects as the Board may deem advisable, except that the Board may not, without approval of the shareholders, make any amendment which would (i) materially increase the benefits accruing to Participants under the Plan, (ii) materially increase the aggregate number of shares of Common Stock which may be issued under the Plan (except for adjustments pursuant to Article 15 of the Plan), or (iii) materially modify the requirements as to eligibility for participation in the Plan. Without further shareholder approval, the Board may amend the Plan to take into account changes in

applicable securities, federal income tax laws, and other applicable laws. Further, should the provisions of Rule 16b-3, or any successor rule, under the Exchange Act be amended, the Board, without further shareholder approval, may amend the Plan as necessary to comply with any modifications to such rule. The provisions of Article 14 may not be amended more than once every six months, other than to conform with changes in the Code or in Rule 16b-3 under the Exchange Act.

ARTICLE 17
MISCELLANEOUS

17.1 Tax Withholding. Corporation shall have the right to deduct from any settlement of any Award under the Plan, including the delivery or vesting of Shares, any federal, state, or local taxes of any kind required by law to be withheld with respect to such payments or to take such other action as may be necessary in the opinion of Corporation to satisfy all obligations for the payment of such taxes. The recipient of any payment or distribution under the Plan shall make arrangements satisfactory to Corporation for the satisfaction of any such withholding tax obligations. Corporation shall not be required to make any such payment or distribution under the Plan until such obligations are satisfied.

17.2 Unfunded Plan. The Plan shall be unfunded and Corporation shall not be required to segregate any assets that may at any time be represented by Awards under the Plan. Any liability of Corporation to any person with respect to any Award under the Plan shall be based solely upon any contractual obligations that may be effected pursuant to the Plan. No such obligation of Corporation shall be deemed to be secured by any pledge of, or other encumbrance on, any property of Corporation.

17.3 Payments to Trust. The Committee is authorized to cause to be established a trust agreement or several trust agreements whereunder the Committee may make payments of amounts due or to become due to Participants in the Plan.

17.4 Annulment of Awards. Any Award Agreement may provide that the grant of an Award payable in cash is revocable until cash is paid in settlement thereof or that grant of an Award payable in Shares is revocable until the Participant becomes entitled to the certificate in settlement thereof. In the event the employment (or service as a Non-Employee Subsidiary Director or a Consultant) of a Participant is terminated for cause (as defined below), any Award which is revocable shall be annulled as of the date of such termination for cause. For the purpose of this Section 17.4, the term "for cause" shall have the meaning set forth in the Participant's employment agreement, if any, or otherwise means any discharge (or removal) for material or flagrant violation of the policies and procedures of Corporation or for other job performance or conduct which is materially detrimental to the best interests of Corporation, as determined by the Committee.

17.5 Engaging in Competition With the Corporation. Any Award Agreement may provide that, if a Participant terminates employment (or service as a Non-Employee Subsidiary Director or a Consultant) with Corporation or a Subsidiary for any reason whatsoever, and within a period of time (as specified in the Award Agreement) after the date thereof accepts employment with any competitor of (or otherwise engages in competition with) Corporation, the Committee, in its sole discretion, may require such Participant to return to Corporation the economic value of any Award that is realized or obtained (measured at the date of exercise, Vesting, or payment) by such Participant at any time during the period beginning on the date that is six months prior to the date of such Participant's termination of employment (or service as a Non-Employee Subsidiary Director or a Consultant) with Corporation.

17.6 Other Corporation Benefit and Compensation Programs. Payments and other benefits received by a Participant under an Award made pursuant to the Plan shall not be deemed a part of a Participant's regular, recurring compensation for purposes of the termination indemnity or severance pay law of any state or country and shall not be included in, nor have any effect on, the determination of benefits under any other employee benefit plan or similar arrangement provided by Corporation or a Subsidiary unless expressly so provided by such other plan or arrangements, or except where the Committee expressly determines that an Award or portion of an Award should be included to accurately reflect competitive compensation practices or to recognize that an Award has been made in lieu of a portion of cash compensation. Awards under the Plan may be made in combination with or in tandem with, or as alternatives to, grants, awards, or payments under any other Corporation or Subsidiary plans, arrangements, or programs. The Plan notwithstanding, Corporation or any Subsidiary may adopt such other compensation programs and additional compensation arrangements as it deems necessary to attract, retain, and reward employees and directors for their service with Corporation and its Subsidiaries.

17.7 Securities Law Restrictions. No Shares shall be

issued under the Plan unless counsel for Corporation shall be satisfied that such issuance will be in compliance with applicable federal and state securities laws. Certificates for Shares delivered under the Plan may be subject to such stop-transfer orders and other restrictions as the Committee may deem advisable under the rules, regulations, and other requirements of the Securities and Exchange Commission, any stock exchange upon which the Common Stock is then listed, and any applicable federal or state securities law. The Committee may cause a legend or legends to be put on any such certificates to make appropriate reference to such restrictions.

17.8 Governing Law. Except with respect to references to the Code or federal securities laws, the Plan and all actions taken thereunder shall be governed by and construed in accordance with the laws of the state of Maryland.

ARTICLE 18
SHAREHOLDER APPROVAL

The adoption of the Plan and the grant of Awards under the Plan are expressly subject to the approval of the Plan by Corporation's shareholders holding a majority of Corporation's outstanding Shares.

1. Defined Terms

When used in this Agreement, the following terms shall have the meaning specified below:

(a) "Acquiring Person" shall mean any person or related person or related persons which constitute a "group" for purposes of Section 13(d) and Rule 13d-5 under the Securities Exchange Act of 1934 (the "Exchange Act"), as such Section and Rule are in effect as of the Grant Date; provided, however, that the term Acquiring Person shall not include (i) Corporation or any of its Subsidiaries, (ii) any employee benefit plan of Corporation or any of its Subsidiaries, (iii) any entity holding voting capital stock of Corporation for or pursuant to the terms of any such employee benefit plan, or (iv) any person or group solely because such person or group has voting power with respect to capital stock of Corporation arising from a recoverable proxy or consent given in response to a public proxy or consent solicitation made pursuant to the Exchange Act.

(ii) During any period of 12 consecutive calendar months, individuals who at the beginning of such period constitute the Board cease for any reason to constitute at least a majority thereof unless the election, or the nomination for election, by Corporation shareholders of each new director was approved by a vote of at least a majority of the directors then still in office who were directors at the beginning of the period; or

(iii) There shall be consummated (i) any consolidation or merger of Corporation in which Corporation is not the continuing or surviving corporation or pursuant to which Voting Securities would be converted into cash, securities, or other property, other than a merger of Corporation in which the holders of Voting Securities immediately prior to the merger have the same proportionate ownership of common stock of the surviving corporation immediately after the merger, or (ii) any sale, lease, exchange, or other transfer (in one transaction or a series of related transactions) of all, or substantially all, of the assets of Corporation, provided that any such consolidation, merger, sale, lease, exchange, or other transfer consummated at the insistence of an appropriate banking regulatory agency shall not constitute a Change in Control; or

(c) "Change in Control Date" shall mean the first date following the Grant Date on which a Change in Control has occurred.

(d) "Disability" shall mean permanent and total disability as defined in Section 22(e)(3) of the Code.

- (a) Participant's death or withdrawal from the Board by reason of Disability or Retirement; or
- (b) A Change in Control Date.

3.5 Method of Exercise. The Option may be exercised by delivery of written notice to Corporation stating the number of Shares, form of payment, and proposed date of closing.

the Option. The grant date for such replacement Option shall be the date of exercise and the option price for such replacement Option shall be the Fair Market Value of a Share on such grant date. If Corporation determines that any required approval cannot be obtained, this Option shall terminate on notice to the Optionee to that effect. Without limiting the foregoing, Corporation shall not be required to issue any Shares upon exercise of the Option, or any portion thereof, until Corporation shall have taken any action required to comply with all applicable federal and state securities laws.

Subject to restrictions on transferability set forth in the Plan, this Agreement shall be binding upon and benefit the parties, their successors and assigns.

7. Notices

Any notices under this Option shall be in writing and shall be effective when actually delivered personally or, if mailed, when deposited as registered or certified mail directed to the address of Corporation's records or to such other address as a party may certify by notice to the other party.

8. Arbitration

Any dispute or claim that arises out of or that relates to this Agreement or to the interpretation, breach, or enforcement of this Agreement, shall be resolved by mandatory arbitration in accordance with the then effective arbitration rules of Arbitration Service of Portland, Inc., or American Arbitration Association, whichever organization is selected by the party which first initiates arbitration by filing a claim in accordance with the filing rules of the organization selected, and any judgment upon the award rendered pursuant to such arbitration may be entered in any court having jurisdiction thereof.

9. Attorneys' Fees

In the event of any suit or action or arbitration proceeding to enforce or interpret any provision of this Agreement (or which is based on this Agreement), the prevailing party shall be entitled to recover, in addition to other costs, reasonable attorneys' fees in connection with such suit, action, arbitration, and in any appeal. The determination of who is the prevailing party and the amount of reasonable attorneys' fees to be paid to the prevailing party shall be decided by the arbitrator or arbitrators (with respect to attorneys' fees incurred prior to and during the arbitration proceedings) and by the court or courts, including any appellate courts, in which the matter is tried, heard, or decided, including the court which hears any exceptions made to an arbitration award submitted to it for confirmation as a judgment (with respect to attorneys' fees incurred in such confirmation proceedings).
